Venetian

Traditional Cast-Iron Radiators

Characteristics

- The Venetian cast-iron radiator elegantly combines opulent style with modern heating efficiency.
- Available in three heights (954mm, 760mm & 660mm) the venetian is ideal for traditional styled new build or period refurbishment projects.
- Available immediately ex-stock from our Wicklow Distribution Centre.
- Each section is pressure tested to 10 bar, working pressure 6 bar.
- Raised floral pattern motif.
- Each Venetian cast-iron radiator comes with a 10-year manufacturers warranty.
- All heat outputs quoted conform to European Standard EN442.

Optional Extra

- Powder-coated paint finish in all colours available upon request.

Colours available

- Antique Gold • Antique Silver • Antique Copper
- Pewter Grey • Pewter Silver • Gloss Black • Ivory

A wide selection of plain colours also available.

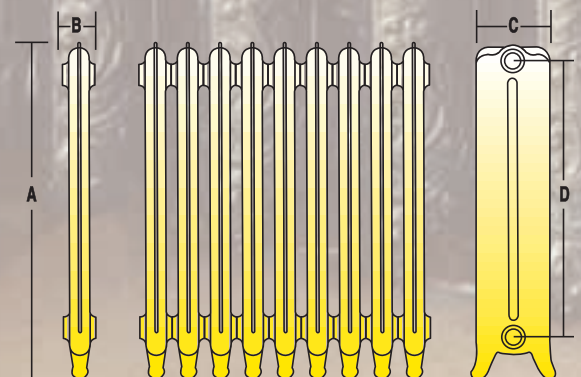

Radiators longer than 10 sections will require some on-site assembly. We recommend the use of wall retaining stays. Radiators are finished with a factory primer base suitable for metallic or gloss paint.
